

CROSH Student Awards

The list of CROSH student awards is typically released early in the fall semester. The awards are sent to graduate student members through the CROSH email network and are also posted on the CROSH website.

Application Process:

Students are required to submit **one (1) application per award** they wish to apply for. Each application must consist of:

- 1) A cover letter that clearly indicates the award being applied for and justification as to why his/her research is relevant to the criteria of the award;
- 2) Updated CV and copy of transcript (unofficial transcript is sufficient);
- 3) Two (2) letters of reference that comment on the relevance of the student's research in respect to the award being applied for.

Students must read the criteria of each award, as some will require further documentation.

Hard copies of complete applications must be submitted before the closing date to:

Giselle Thrush

Administrative Assistant

Centre for Research in Occupational Safety and Health

B217-C
